

Palais Sebban

Highlights

- Excellent quality
- Good position in Marrakech
- Swimming pool
- Hammam and spa

Situation

A riad within the heart of Marrakech, not far from the Koutoubia Mosque.

Activities

You can visit the souks, the Majorelle Gardens and many other sights using this riad as your base.

Palais Sebban is a beautiful riad in Marrakesh which has been carefully restored over the course of 4 years, down to the finest detail, and utilising many of the original features. The result is a riad of stunning grandeur.

There are 5 separate courtyards of varying size, a beautifully ornate swimming pool, spa, hammam and massage facilities, and a large roof-terrace offering views of Koutoubia mosque in one direction, or the Atlas Mountains in the other. A maze of connecting hallways offer many small seated areas located in alcoves -perfect for tranquil relaxation.

There are 15 generously sized rooms and suites, some with pool view and private terrace. All rooms have been individually designed, combining traditional Moroccan features with mod-cons such as air-conditioning, safes, mini-bars, hairdryers and heating. The staff offer a high level of service, and the property retains a warm, family-run atmosphere.
