

Mountain Gorillas Nest

- Highlights**
- Ideal base for gorilla trekking and other mountain treks in the Volcanoes area
 - Friendly and helpful staff
- Situation** Kinigi - close to the Volcanoes park head quarters.
- Activities** Base for gorilla treks and other mountain treks.

A comfortable and friendly lodge, ideally located for trekking the gorillas.

Mountain Gorillas Nest is located 2 kms west of the Kinigi Park Headquarters. The lodge is in a lovely rural setting and ideally situated to the park headquarters for the gorilla treks and registration. Each room is built alongside the gardens amongst tall trees and some with views over the golf course at the back. The rooms all look outwards into the Eucalyptus forest, pyrethrum farms and shambas (farms) beyond.

The Lodge is well constructed, but basic with grass covered roofs in traditional Rwandese style. There is a golf course in the grounds and a club house where drinks and snacks are served.

Note: This hotel is being rebuilt and rebranded in 2011 - details to follow. As of December 2010, some rooms are not in use and the main lounge and bar area will be closing, during the time of re-building, the 'back' section of rooms will remain open and the golf club facilities will be used for dining.
