

Arusha Coffee Lodge

- Highlights
- Friendly personal service in quiet surroundings
 - Working traditional coffee farm
 - Easy access to parks and airport

Situation Arusha, 5 minutes drive from Arusha airport.

Arusha Coffee Lodge is situated just off the main road, a few minutes from Arusha airport. It is an ideal one or two night stopover hotel if you need some time in Arusha, or if you need to be close to the airport for an early morning flight.

There are 30 plantation houses (including 12 suites) dotted around a still-functioning coffee plantation and the plantation coffee is served at the lodge.

The rooms are very tastefully furnished, with living areas, king-size beds, wood burning stoves (in the houses), wooden floors, and tiled en-suite bathrooms and private verandas. The coffee theme is apparent in the style of the rooms, with dark wood fittings and lots of natural fibres in the furnishings. There is a mini bar, and coffee making facilities in all rooms, and room service is available.

Arusha Coffee Lodge has a good size pool with a large wooden deck. The restaurant serves good meals, and there is a large pleasant bar near the entrance next to a large pond with a bridge over it. There is also a coffee shop, boutiques, art and craft shops and a patisserie.
