Please note these prices are subject to change

Samba is a classic traditional steel hulled motor yacht built in Holland in 1996 as a private yacht. She offers comfortable and spacious accommodation and plenty of deck space, where passengers can relax, watch the marinelife and enjoy the wonderful views. There are 7 double cabins, all with ensuite bathroom with hot water. All cabins are air conditioned.

There is an attractive dining room/salon, where delicious Ecuadorian and international cuisine are served. There is a TV, DVD player and stereo as well as a mini library with books and videos. This is also where the naturalist's briefings take place. There is ample deck space, with open and shaded areas and plenty of comfy seating and sun loungers. It is also possible to enjoy meals in the open air. The level of service on Samba is high from the well trained crew and guide.
