Tips

Personal expenses including bar consumption

All the above are subject to change at short notice

Nina was constructed at the end of 2008 and is the first of the brand new KAT-700 luxury catamarans. She has been built to an extremely high standard. Although one of the fastest boats in the Galapagos, she is also one of the most stable and gives a smooth and comfortable ride.

There are 10 cabins (8 doubles/twins and 2 singles), all are spacious with ample storage space and ensuite bathroom with shower, hand basin and toilet. All cabins have a private balcony. The cabins have individual climate control and the whole boat is air conditioned.

There are indoor and outdoor dining areas. The menu is varied and includes local specialities as well as international dishes. There is always at least one vegetarian option. Light snacks, tea and coffee are served between meals, water and fizzy drinks are free. The lounge has a library, TVs, DVD player and stereo system. The bar is located on the upper deck and guests can relax here over a cold drink on the comfy chairs and sofas enjoying the sea and island views. The huge sundeck has sunloungers and a jacuzzi and is perfect for relaxing between island visits. Snorkelling equipment is available.
